ON STOCK EXCHANGE**Volume of Trading Smallest of Any
Session During Several Weeks—
Stocks Show Strength.

NEW YORK. March 27.—The most significant feature of the day was the steady diminution of dealings, the total being the smallest of any full session in several weeks.

The motors and distilling shares had the stronger issues at gross gains of 1 to 3 points; shipping, tobacco, tea and paper shares registered moderate advances of 1 to 3 points.

Metallic and equipments derived their moderate strength from an encouraging statement issued by Judge Day.

Basis rates for call money and advances from Paris reporting brokers in the gold conference stimulated some activity by pools regarding favorite stocks such as Mexican Petroleum, Texas Company, General Motors, Industrial Alcohol, Standard Oil and American Sugar.

Holds were again a source of disappointment failing to throw off their recent apathy except for moderate inquiry for Union Pacific and several other high grade issues in the final hour.

Trading in bonds embraced more than the usual number of issues, but the underwriters continued irregular, liberty bonds alone displaying firmness. Several of the railway convertible issues weakened, old U. S. coupon and registered 4% lost 1-1/4 per cent on call.
